Description

Welcome aboard Amazon, a beautifully presented 36ft traditional stern narrowboat, built in 1992 by Dave Clarke Boat Builders. Compact yet cleverly designed, she combines character, practicality, and comfort, making her an ideal choice for family life on the water.

The galley is thoughtfully laid out to make the most of the available space, providing everything needed for day-to-day living. It features a separate under-counter oven and grill, a four-burner integrated gas hob, and a 12v Shoreline fridge with freezer compartment. A stainless steel sink with drainer adds convenience, while a generous range of cupboards and drawers ensures ample storage for food, cookware, and kitchen essentials.

The saloon is warm and inviting, designed with versatility in mind. Bench seating easily converts into a comfortable double bed, with handy storage compartments tucked underneath. Floor sockets accommodate a removable dining table, allowing the area to function as a dining or social space as required. A Morso multifuel stove provides a cosy focal point and keeps the cabin comfortable year-round, while a dedicated TV shelf adds a homely touch.

The bathroom is well appointed, featuring a bath with an overhead shower, a sink set within a vanity unit, a cassette toilet, and a heated towel rail. Every detail has been designed for convenience without compromising comfort.

Amazon's flexible layout makes it ideal for a family of four, with practical sleeping arrangements and communal spaces that maximise comfort while afloat.

Built with traditional craftsmanship by Dave Clarke Boat Builders, Amazon features a traditional stern and a layout with the
