

Heather - Narrowboat

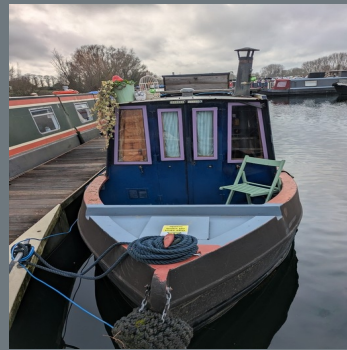

£38,000

🌀 Located at Roydon Marina Village

🌀 2 Berths

🌀 Length 40ft

🌀 1991

Description

Heather is a charming 40ft traditional stern narrowboat built in 1991 by Delph Marine, offering a warm, homely interior and a practical layout that makes her ideal for comfortable cruising or relaxed liveaboard use. She has clearly been well cared for and benefits from a solid maintenance history, having been blacked and engine-serviced in March 2025 with two coats of bitumen applied and six new anodes fitted. The Boat Safety Certificate is valid until 29 September 2026, giving peace of mind to her next owner. The only noted outstanding issue is some superficial external rust, which is scheduled to be treated in spring.

Internally, Heather feels bright and welcoming, helped by a generous cabin height of 6ft 3in and a sensible layout running from stern to bow through the bedroom, bathroom, kitchen and lounge. The bedroom features a raised double bed with ample storage beneath, along with a hanging rail and additional storage. The calorifier and immersion water heater switch are also located here, neatly integrated into the space.

The bathroom is both stylish and practical, fitted with a Simploo composting toilet, a river stone basin, a tiled shower and useful

storage, all finished with a ceramic tiled floor. An inspection hatch is conveniently located within the bathroom area. Moving forward, the galley is well equipped and thoughtfully laid out, featuring a cooker with a four-ring hob, a large new Belfast sink with an extendable tap, and plenty of storage. A decorated side hatch provides natural light and ventilation, while a large table or desk makes this space ideal for dining or working aboard.

At the bow, the lounge offers a cosy and comfortable living area, complete with a sofa bed that is less than two years old, a large Hamlet multi-fuel stove and a storage cabinet, creating a welcoming space for relaxing in all seasons. Heather is well set up for both marina and off-grid living, with mains hook-up, three solar panels and four leisure batteries providing a strong and reliable power supply.

Powered by a three-cylinder Thorncroft engine paired with a PRM Hydro 150 gearbox, last serviced in March 2025, Heather is a capable and dependable narrowboat. With two berths, one bathroom and a traditional stern, she offers a well-balanced combination of character, comfort and recent upgrades, making her a lovely option for anyone looking for a ready-to-enjoy narrowboat with plenty of charm.
