Love in a Mist

Price: £115,000

Key Features

Location:	Tattenhall Marina
Berths:	2
Length:	60ft
Type:	Narrowboat
Year:	2021

Description

Step aboard Love in a Mist, a beautifully presented 60ft semi cruiser stern narrowboat, expertly crafted by Cunliffe Bespoke Boats in June 2021. With a desirable reverse layout and double-glazed windows throughout, this contemporary liveaboard or holiday escape is packed with premium features and thoughtful design.

Powered by a reliable Beta 43hp engine with just 307 hours of cruising time, this vessel includes both bow and stern thrusters for easy manoeuvrability. She also boasts a powerful 900w solar array (3 panels), a Victron 3kW inverter/charger, MPPT solar controller, and lead carbon domestic batteries installed in 2023 - offering excellent off-grid capability.

Inside, the layout flows from stern to bow, beginning with the comfortable saloon, which features a brand-new two-seater sofa, a solid fuel stove, smart TV with media unit, glazed side hatch, and ample storage options.

The fully equipped galley includes a Shoreline 70/30 fridge freezer, oven with separate grill, microwave, two-burner gas hob, full-size washing machine, composite sink with mixer tap, white granite worktops and drainer, a coffee machine, and a wealth of storage space.

The stylish walk-through bathroom is finished to a high standard, offering a quadrant shower with glazed sliding doors and a rise-and-fall shower head, a ceramic cassette toilet, a raised oval ceramic washbasin on a white quartz top with a cupboard below, and a chrome heated towel rail.

At the bow, the serene bedroom provides a full-size cross bed with a brand-new 70/30 mattress, two bedside cabinets, two wardrobes/cupboards, and glazed double doors that lead out to a cratch-covered well deck. This area is perfect for enjoying your surroundings in comfort and privacy.

External features include a full glazed cratch cover with removable window panels, a weed hatch via the cruiser stern, and side hatches in the saloon for added light and ventilation.
