Built by Springer and fitted out by its owner, Mystic Nights has a straightforward layout that makes the most of its space. From the stern, the boat flows naturally through the engine room, bedroom, bathroom, kitchen, and saloon. Each area is designed to be functional and comfortable, providing everything you need for life afloat.

The kitchen is compact but well-equipped for everyday cooking. Granite worktops provide a durable surface, while the sink, cooker with grill and hob, and fridge ensure you have everything you need to prepare meals. The layout makes it easy to cook while still enjoying the surrounding views.

The saloon is a cosy spot to relax, whether you're cruising or moored. A multi-fuel stove keeps the space warm and inviting, while the sofa converts into a double bed with handy storage underneath. A TV cabinet with additional storage makes it easy to keep the space tidy and functional.
